

**College of Micronesia – FSM
 Summer 2014 Semester Initial Enrollment Summary &
 Summer Trends Data**

**Institutional Research & Planning Office
 Department of institutional Effectiveness and Quality Assurance
rschplanning@comfsm.fm
 June 2014**

The following information summarizes Summer semester 2014 initial enrollment data for the College of Micronesia – FSM. Comparison data is also provided for a number of data sets for multi-years to allow trends to be observed. This report will be expanded at the end of the semester to include student achievement data. For additional information please contact the Institutional Research and Planning Office at Email: rschplanning@comfsm.fm Phone: (691) 320-2480 ext. 119 or via the College Website: <http://www.comfsm.fm/irpo/>.

Semester Data

Enrollment Headcount, FTE, Student Type & Credits

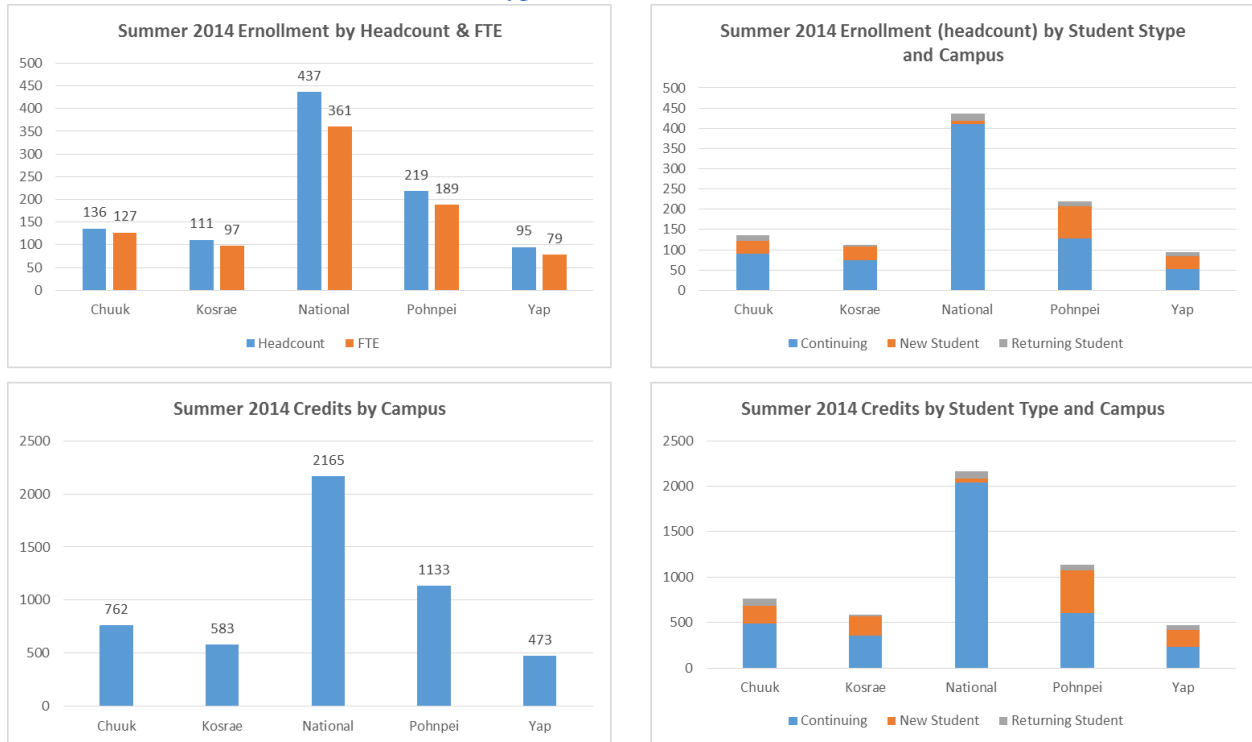

Figure 1 Summer 14 Headcount, FTE, Student Type and Credits

Figure 1 and Table 1 provide data on Summer semester 2014 enrollment by Headcount, Full Time Equivalence (FTE) and Student Type. Table 2 provides the proportions of students by headcount and credits by campus. Generally, there is little variation in the percent of students headcount and credits are similar across all campuses.

Credits information by major/degree and campus for Summer 2014 can be found in table 4 at the end of this report. Enrollment information for new students for Summer 2014 can be found in

table 5 and enrollment ratios and average class size for Summer 2014 by program can be found in table 6 at the end of this report.

Table 1 Summer 14 Headcount, FTE and Student Type by Campus

student type	Chuuk	Kosrae	National	Pohnpei	Yap	students
Continuing	90	75	411	128	52	756
New Student	32	33	7	80	33	185
Returning Student	14	3	19	11	10	57
students	136	111	437	219	95	998
FTE	127	97	361	189	79	853

Table 2 Proportions Headcount and Credits by Campus

Campus	% Headcount	% Credits
Chuuk	14%	15%
Kosrae	11%	11%
National	44%	42%
Pohnpei	22%	22%
Yap	10%	9%

Enrollment Degree Type

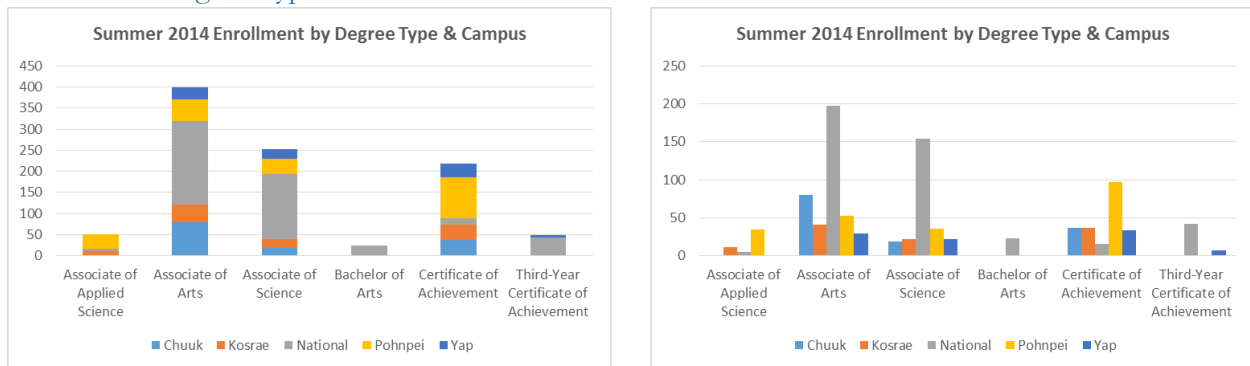

Figure 2 Enrollment by Degree Type

Enrollment by degree type for Summer 2014 has 65% of students enrolled in Associate of Arts and Sciences degrees and 22% enrolled in certificate programs. Associate of Applied Sciences and third year programs each have 5% of total enrollment with the final 2% enrolled in the Bachelor of Arts programs being conducted in partnership with University of Guam.

Enrollment State of Origin

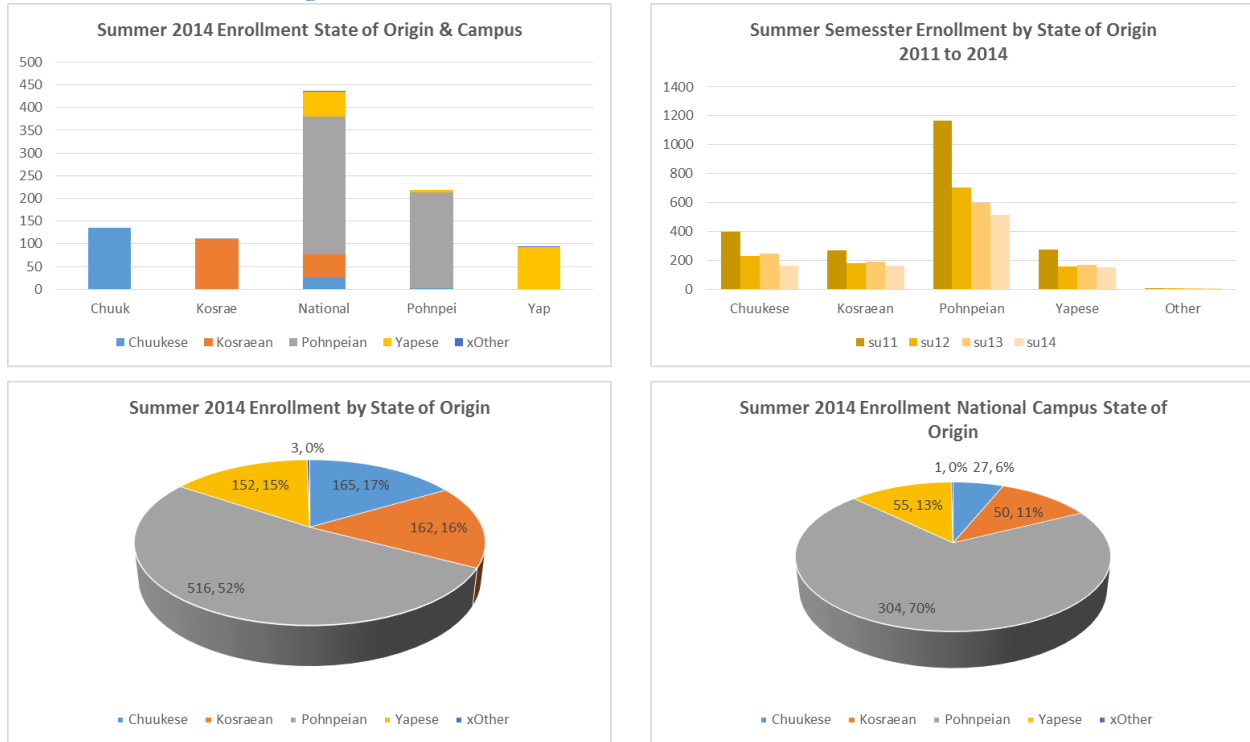

Figure 3 Enrollment by State of Origin

Overall Pohnpeians represent 52% of college students and 70% of the National campus enrollment. Chuukese, while having 47% of the overall FSM population, represent 17% of total students at the college and 6% of students at the National campus. Kosraeans represent 16% of the college and 11% of the National campus while Yapese represent 15% of the total students at the college and 13% of students at the National campus.

Enrollment Gender

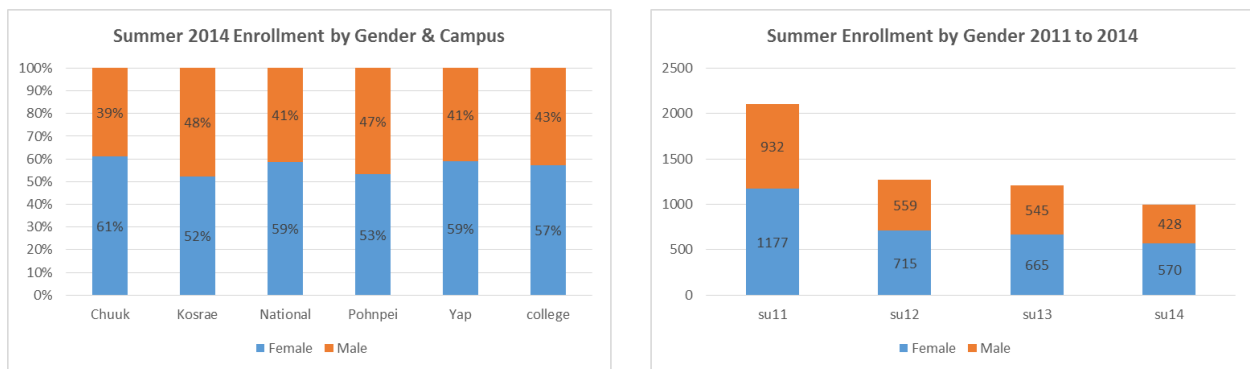

Figure 4 Enrollment by Gender

Females represent over 50% of the student population at all campuses for Summer 2014. This is somewhat different from Fall and Spring semesters where Kosrae and Pohnpei campuses tend to have more males than females.

Section Enrollment Ratios and Average Class Size

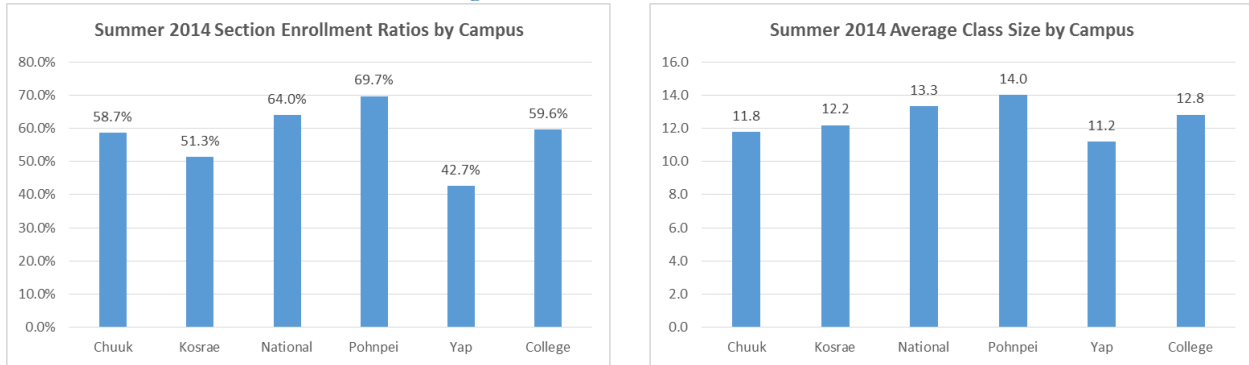

Figure 5 Enrollment Ratios & Average Class Size by campus

The college offered 127 sections this summer with an enrollment ratio of 59.6% and an average class size of 12.8. Enrollment ratios varied from 69.7% at Pohnpei campus to 42.7% at Yap campus, while average class size varied from a high of 14.0 at Pohnpei campus to a low of 11.2 at Yap campus.

Table 3 Summer 14 section data, enrollment ratios and average class size

campus	#sections	enrolMax	enrol	enrolRatio	AvgClassSize
Chuuk	21	421	247	58.7%	11.8
Kosrae	16	380	195	51.3%	12.2
National	52	1084	694	64.0%	13.3
Pohnpei	24	482	336	69.7%	14.0
Yap	14	368	157	42.7%	11.2
College	127	2735	1629	59.6%	12.8

Histograms Credits and Age Distributions

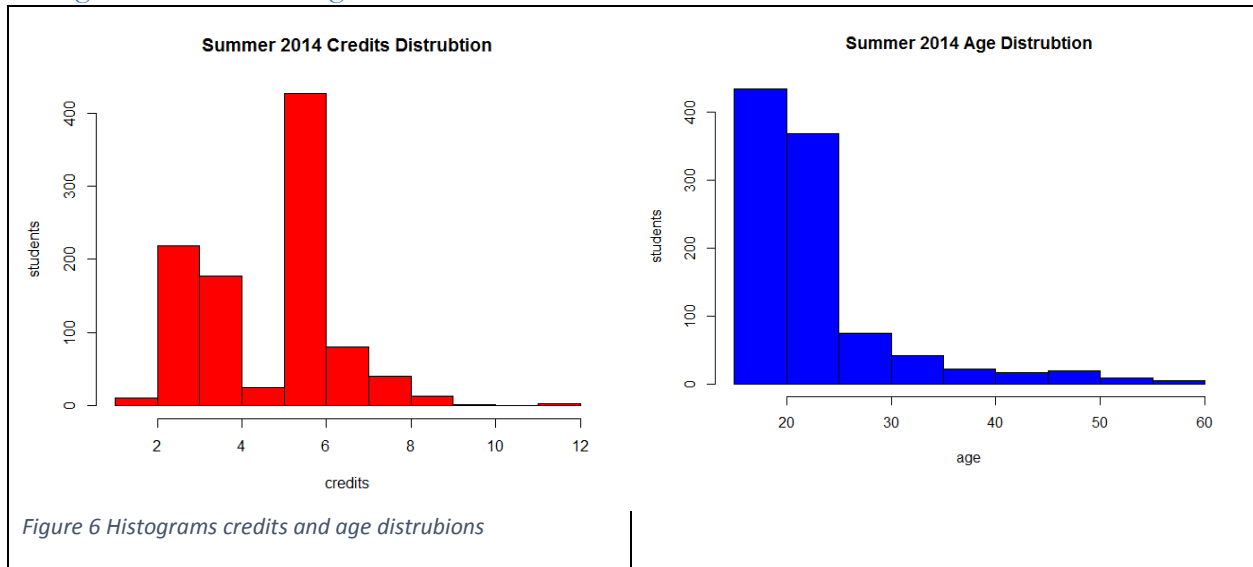

Figure 6 Histograms credits and age distributions

Four hundred and eighteen students enrolled for 6 credits, 219 students were enrolled for 3 credits and 178 students enrolled for 4 credits. Summer students mean age was 23.58, median was 21 and 75% of students were 24 year of age or younger.

Trends Data

Enrollment Headcount, FTE and Credits

Figure 7 Trend data headcount, FTE and credits

From its high point in Summer 2011, headcount has been reduced by 53% and credits 57% in summer 2014. A similar comparison with Summer 2009 (year prior to introduction of year round Pell) shows a drop in Summer 2014 of 44% for both enrollment and credits.

Enrollment by Campus

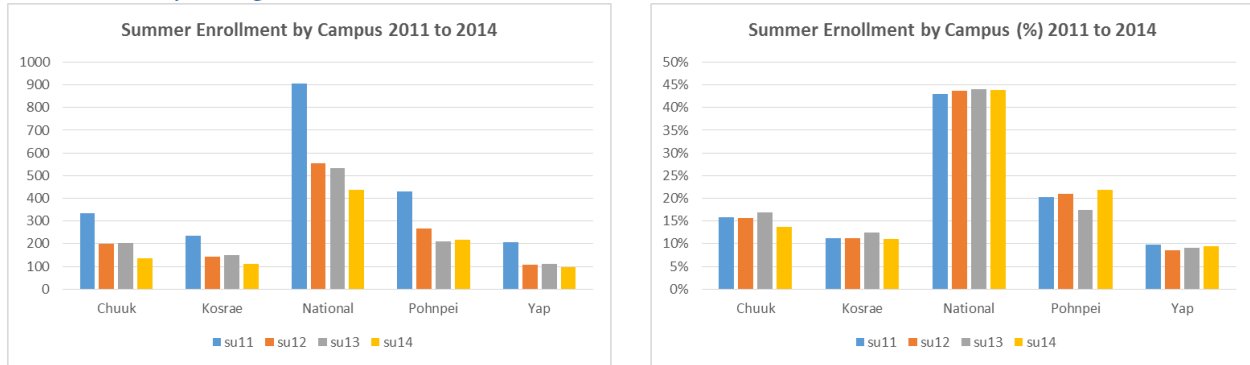

Figure 8 Enrollment by campus and percent enrollment by campus

The reductions in enrollment has been seen across all campuses with only slight variations in the proportions of enrollment for individual campuses.

Enrollment by Student Type

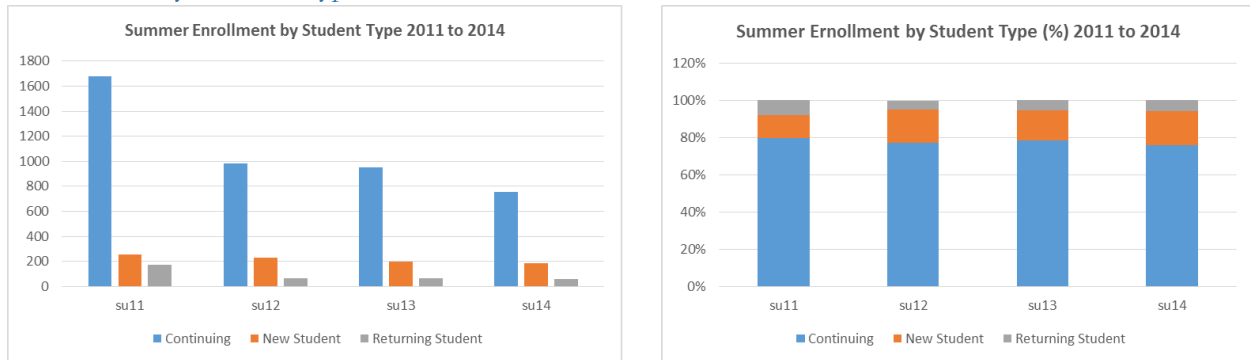

Figure 9 Enrollment by student type

Using Summer semester 2011 as baseline, there has been reduction in enrolment by all student types. New students has seen the smallest decrease at 28%, continuing students reduction at 55% and returning students has decreased by 67%.

State of Origin

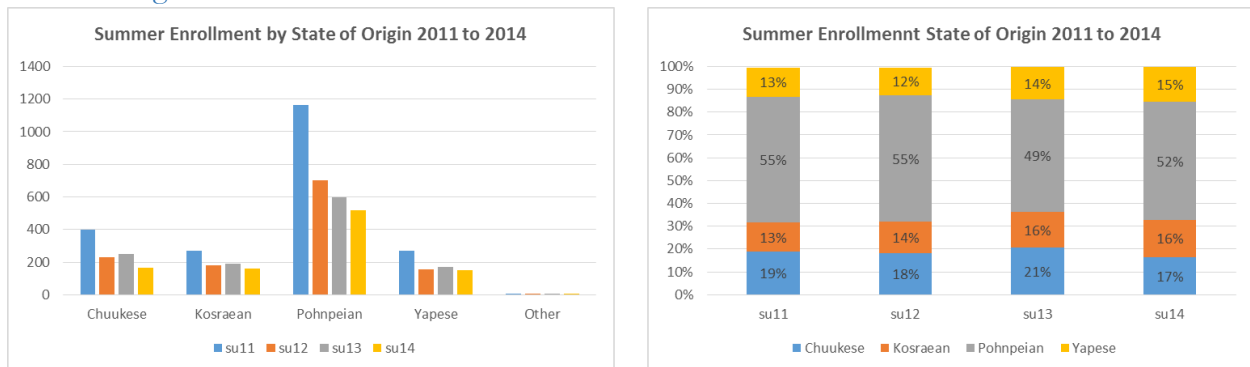

Figure 10 Enrollment by state of origin

Summer enrollment by state of origin since the Summer of 2011 has been fairly stable indicating the enrollment decline is being seen in all FSM states. The largest increase of 3% is seen in Kosraeans and the largest decrease 3% is seen in Pohnpeians.

Section Fill Ratios and Average Class Size

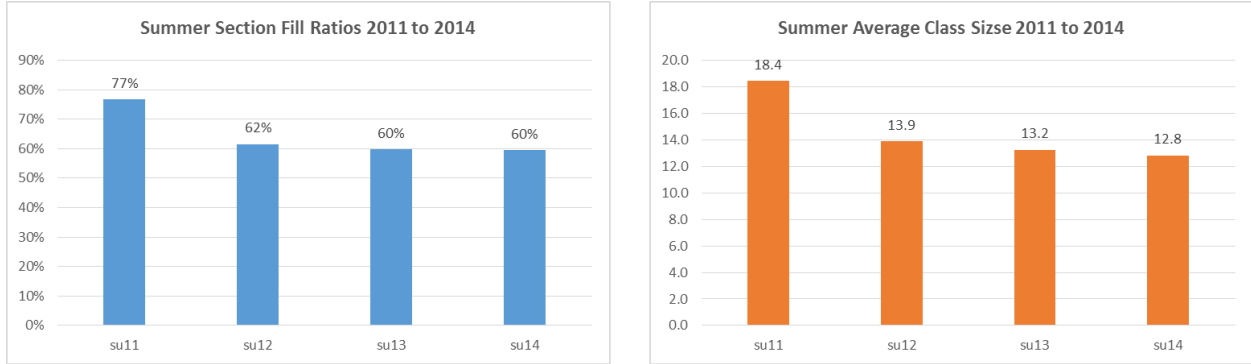

Figure 11 Section fill rates (enrollment ratios) and average class size

Section fill rates (enrollment ratios) has decreased by 17% from Summer 2011 to 2014, while average class size has reduced by average class size in 5.6 students lower.
