~~Program review and evaluation processes may indicate that an instructional program is not viable and should be eliminated from College offerings; the program needs to be deleted. Deletion refers only to those programs that will not likely be offered again; it does not refer to those programs that may be offered on a cyclical basis and have periods of inactivity. While programs may be removed from the catalog, specific courses will remain on the "List of Active Courses" for transcribing purposes.~~

If a formal program review determines an instructional program is no longer viable, the College shall initiate a Formal Deletion. This process applies only to programs intended for permanent removal and excludes those offered on a planned cyclical basis. To maintain institutional records, individual courses within a deleted program will remain on the 'Active Course Inventory' for transcription purposes only. All program deletions must be accompanied by a Teach-Out Plan to ensure currently enrolled students can fulfill their degree requirements.
