Review of Board Policy 8900

**RECOMMENDED DIRECTIVE:**

The Board hereby approves the amendments to Board Policies: 8900 (Cybersecurity)

**DISCUSSION:**

Policies and procedures are living documents designed to adapt to the evolving nature of an organization. While the core principles of a policy may endure, the specific details should be adaptable and responsive to the organization's shift. Consequently, the Vice President of Institutional Effectiveness and Quality Assurance (IEQA) consistently engages in collaboration and coordination with relevant offices and standing committees within the college to assess policies and procedures.

Following endorsement by the **Information, Communication and Technology** standing committee on April 28, the Executive Committee reviewed and recommends the following approval by the Board of Regents for June 9, 2026:

Board Policy	New, Amendments or Deletion	Remarks
BP No. 8900 Cybersecurity	New	This new policy establishing the College's cybersecurity framework, including governance, user responsibilities, incident reporting, acceptable use, and compliance requirements. The policy aligns with industry-recognized cybersecurity standards and supports the protection of institutional data, systems, and technology resources.
